Connect with our customers

Open up your business to our customers. Across our four locations in German-speaking Switzerland, our data centers provide a total space of 20,000 m². With the completion of two additional data centers at the Metro-Campus Zurich, this area will expand to 32,000 m².

The customer rooms in our data centers allow racks with an energy consumption of up to 25 kW. Carrier and meet-me rooms are clearly separated at the respective location. No compromises are made when it comes to resilience and security. All the while, we're continuously optimizing energy efficiency.

We offer a secure and sustainable place for hardware and sensitive data of SMEs, enterprises, and hyperscalers. Provide your customers access to our modern data centers and network and enable our customers to connect to your networks.

Our offer in the Metro-Campus Zurich / Metro Campus Zurich West

- ✓ New, high-performance carrier racks in energy-saving cold aisle containment
- ✓ Various rack sizes available
- ✓ Electricity billed based on consumption
- ✓ Low electricity costs thanks to high energy efficiency
- ✓ Attractive conditions over the first three years of the contract
- ✓ 365 x 24 monitoring of security, supply, and climate
