

#### CHINA EXPRESS CONNECT

## From Switzerland to China and other parts of Asia in just milliseconds

Fast and secure data connections are key to a well-functioning IT infrastructure today. With China Express Connect you get a range of direct network connections, realized and supported by Green.

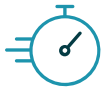

#### They cover a variety of scenarios, such as:

- Connections to leading cloud providers.
- Data exchange between production facilities and headquarters.
- Data exchange between trading partners.
- Data exchange with development partners.

#### This service offers:

- ✓ A direct line from PoP to PoP to give you the shortest possible latency
- ✓ A broad range of bandwidths from 10 Mbps to 10 Gbps
- ✓ Local support through partnerships with leading Asian telecom providers
- ✓ Best value for money thanks to our partnerships in China
- ✓ Reliable connections with a security guarantee
- ✓ Flexibility and scalability
- ✓ High-performance SLA with 99.9 % availability

Connect directly over long distances

**Minimum latency for destinations in Asia:**

- Beijing in 122 ms
- Shanghai in 142 ms
- Shenzhen in 162 ms
- Hong Kong in 160 ms
- Singapore in 140 ms
- Tokyo in 179 ms

**Would you like to find out more?**

We are happy to answer questions and to discuss your project.

**moving. forward. together.**
