

DATA CENTER

Zurich North Data Center – Highest security and availability

Centrally situated in an up-and-coming business area and easily accessible via car and public transport, the location for the Zurich North Data Center meets all the requirements for a modern data center.

Security is a top priority at the Zurich North Data Center and is ensured by ISO-certified processes, multiple access protection and redundant power supply and cooling systems.

Covering 1,000 m² and two floors, the Zurich North Data Center provides a modern colocation environment with racks, data center cages and suites starting at 20 m² – the right size for any business. The data center is carrier neutral. Multiple fiber-optic access points ensure connection with the major telecommunications networks.

Location

- On the outskirts of Zurich
- Close to a freeway exit
- Airport is 7 minutes away by car, train station located nearby

Building

- 2-floor data center
- Data center colocation size: 1,000 m²
- Colocation racks, data center cages and data center suites starting at 20 m²
- Loading dock for deliveries and material lock system for small items

Connectivity

- Carrier-neutral
- Multiple fiber-optic building entries
- Numerous carriers available
- Meet-Me-Room concept
- Access to cloud services
- Connection through own redundant fiber ring between further Green data centers

Security

- Video surveillance
- In operation 24 hours a day, 365 days a year
- Separate access points for individuals and equipment
- Secure storing room for deliveries
- Access control with a badge and PIN code as well as a man trap system that uses biometric identification
- Early fire detection system (VESDA), redundant nitrogen extinguishing system

Infrastructure

- Dedicated redundant power utility from two substations
- Multiple diesel generators, redundant UPS system, generator operation for up to 48 hours
- Redundant cooling systems, redundant cooling water piping
- Cold aisle principle for maximum energy efficiency (PUE of 1.5)

Certifications & Reports

- Information security standard ISO 27001
- Energy management standard ISO 50001
- LL-C certified operational processes
- SOC 1 and SOC 2 audited company
- ISAE3402 report on request
- Audits on request

Optional services

- Remote & Smart Hands
- Deployments
- Reports
- Cleaning and disposal, on request also up to certified data disposal
