

# Quickstart-Guide Cyber Files

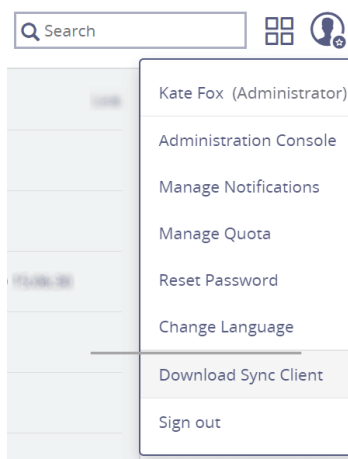

## Activation of the subscription and the client.

Open the Cyber Files Portal login page with your web browser (access link is provided with the order).

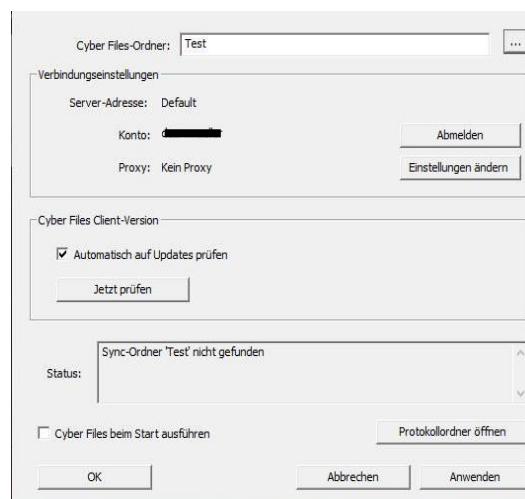

The login page has a title "Anmelden". Below it is a text input field labeled "Anmeldename". At the bottom is a large blue button labeled "Weiter".

1. log in and click on your user icon. You will receive your access data by mail after ordering.
2. Click the **Download Sync Client** link.

3. Save the installation program on your computer.
4. Click **Next** to start the installation.

5. Click Next to accept the default installation folder. Select the desired folder with the files you want to upload or synchronize.

The installation window shows "Cyber Files-Ordner: Test". Under "Verbindungseinstellungen", "Server-Adresse" is "Default", "Konto" is "d...", and "Proxy" is "Kein Proxy". There are "Abmelden" and "Einstellungen ändern" buttons. Under "Cyber Files Client-Version", "Automatisch auf Updates prüfen" is checked, with a "Jetzt prüfen" button. The "Status:" field shows "Sync-Ordner 'Test' nicht gefunden". At the bottom, there is a checkbox "Cyber Files beim Start ausführen", a "Protokollordner öffnen" button, and "OK", "Abbrechen", and "Anwenden" buttons.

6. Click Install..
7. click **Finish** to close the installation program
